# 1118. Number of Days in a Month

## Description

Given a year `year` and a month `month`, return *the number of days of that month*.

### Example 1:

```
Input: year = 1992, month = 7
Output: 31
```

### Example 2:

```
Input: year = 2000, month = 2
Output: 29
```

### Example 3:

```
Input: year = 1900, month = 2
Output: 28
```

### Constraints:

- `1583 <= year <= 2100`
- `1 <= month <= 12`
